

Email, April 1<sup>st</sup>, 2020

Dear XXX,

Thank you very much for clarification. It is clear that the gds, which Nanusens has received from the public institution, cannot be used by Nanusens and should be immediately deleted. All prototypes should be destroyed.

I will write to Nanusens and demand from them to delete the gds and destroy the prototypes, which have been fabricated using the gds.

I appreciate a lot, that you have raised this question, this was absolutely correct behavior from your side.

Thank you and Best Regards,  
Anton Klotz
